School Growth Plan 2022-23

Mission:

Our school will be a place where... Our learning will be creative, thoughtful and engaged. All individuals will maximize their potential in a safe and caring environment.

Objective 1: Students will develop and demonstrate characteristics for learning, playing and growing, with a focus on treating self and others kindly.

Objective 2: Students will improve numeracy understanding and skills, with a focus on numberlines and representing numbers.

Strategies

- The 7 teachings- for character development and ways of being
- Authentic student recognition
- Whole School Monday Check ins- whole school activities 7 teachings focus and SEL focus
- Consistent numeracy instruction and assessment across the grades.
- Collaboration (within school & outside school)
- Students and staff will set goals for improving numeracy skills
- Identify skill gaps and actively provide instruction to improve individual student understandings and knowledge
- Caring School Community- Buddies programing with a focus on connections to others
- Art Academy
