Policy 2100                      STATUS: ADOPTED

---

#### *MISSION STATEMENT & GUIDING PRINCIPLES FOR EDUCATION IN SCHOOL DISTRICT #59*

Board Approved & Codified: June 19, 2013

Last Revised: June 19, 2013

---

Description:

#### ***Mission***

To enable each individual to realize his/her full personal potential.

#### ***Guiding Principles***

- providing opportunities for all employees to learn and apply work methods which are effective and current, in meeting the learning needs of individual students
- developing policy statements and administrative procedures which enable effective leadership and management practices in order to maximize quality educational opportunities for students
- fostering a high level of commitment and satisfaction among employees, students and the general public
- providing opportunities for consultation, collaboration and the exchange of information and ideas concerning education
- using the findings of a comprehensive assessment program to strengthen the services provided in support of students
- enabling responsible employee relationships between the Board and its personnel maintaining physical learning and work environments which are safe, attractive, comfortable and environmentally responsible which support the educational programming of students
- securing and managing sufficient funds to achieve the district's goals
