

4550 Immunization

Policy 4550

STATUS: ADOPTED

IMMUNIZATION

Board Approved and Codified: April 13, 1987

Last Revised: June 19, 2013

Description:

It is the will of the Board of Education that:

1. The schools cooperate with Public Health in the collection of student immunization information and in the prevention of epidemics.
2. Immunization information will be officially requested when each child is admitted to school.
3. In the event of an epidemic, parents will be notified, and given the opportunity to exclude their children from school until the epidemic is over.
4. Should a school's absentee rate be significantly impacted by influenza, Public Health will be notified.
5. The schools will continue to support the public health nurses in the distribution and collection of consent forms.
