NEW BEGINNINGS - EMBRACE THE CHANGE

SPORTS

We had a great start to our volleyball season. The girls and boys teams have already travelled to Fort St. John and Prince George. The senior girls' hosted Hudsons Hope in a close match (we won!). They are practicing hard for a successful season.

INDIGENOUS VOICES

September gave us a lot to reflect on as the seasons changed. We had our Orange shirt day assembly and welcomed students from our elementary schools to share in our celebration of Indigenous culture and life on Treaty 8 territory.

GRADUATION

Our graduation class of 2023 had a great trip to Gwillim Lake for a day of fun and team-building. They also had their first official graduation meeting and voted in an executive graduation council to lead our graduation work this year. Congratulations to our executive graduation council and thanks for your leadership.

Outdoor Learning

We learned outdoors and reflected on the importance of conservation, nature, and having fun!

We lifted each other up....

Students took advantage of every opportunity to learn during the month of September. They found new ways to learn together. We started the year out with a lot of discussion about what makes a great community.

SCIENCE NEWS

Students learned about DNA structure and used inquiry skills to dissect orens!
