School News

In November, we worked hard on the court, in the classroom, and in the community. We have a lot of students working in the community for work experience, 50 in total. There are students preparing for the Explore Trades for Youth program starting in Chetwynd next semester. We have five students in the dual-credit program in Fort St. John and Dawson Creek. They are in heavy-duty technician, automotive technician, carpentry, power-engineering.

We have students involved in sports, and the Sr. Girls team in fourth place in volleyball season wrapped up with fourth place finish at our Zone tournament. The Jr. Girls team made us proud with a fourth place finish. The Jr. Boys team finished 6th in the Zones and went to the provincial tournament with success.
